

THE BODY PERFECT'S® Hand N' Heels Glove®

The Amazing Invisible Glove

Do you love working with your hands, but hate the way it makes them look and feel? Do you scrub and clean your hands but they still look stained and dirty? Worse yet, do they feel rough and calloused... There's good news!! Hands 'N Heels is an innovative two-part system designed to keep hard working hands spotlessly clean and smooth.

Wash Hands.

Apply Hands N' Heels Protectant.

****IF YOU HAVE VERY DRY SKIN****

**Apply Hands N' Heels
Moisture Guard
THEN apply Protectant.**

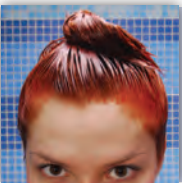

3 Then go about your day!

Use hair dye without worrying that it will stain your hands.

Use on feet before wearing sandals. Keeps feet from getting stained.

Apply Hands N' Heels Protectant to forehead, ears & sides of face. When dyeing hair. Protects skin from getting discolored.

Use on hands before filing or working with paper. NO MORE PAPER CUTS!

Use on hands before working with grease or oil.

Use on hands before working in the garden.

4 Wash Hands and Apply a generous amount of Moisture Guard.

Keeps Hands ('N Heels) Clean & Smooth!

Hands 'N Heels Glove Protectant is a semi-liquid cream that you apply to your hands. It creates a thin film - an invisible glove - around your hands that repels dirt, grease and irritants. When you're done, the glove washes off with soap and water... leaving your hands spotlessly clean and soft. It's even ideal for people who wear sandals who want to protect their feet.

Now that we've eliminated dirty hands, let's protect them and make them feel soft and smooth again. Hands 'N Heels Moisture Guard is a super humectant that prevents moisture loss and keeps your hands feeling soft, smooth and resilient.
